

MINERALS AND ENERGY TITLES DIVISION

ADVERTISING PROCEDURE CHANGES

We have recently implemented new procedures that will require some applications for mining, exploration and extractive activities to be advertised in the *Centralian Advocate*.

At present, applications are advertised in either the *Northern Territory News* or the *Northern Territory News* and the *Koori Mail*, depending on land status. Current costs are \$291.04 or \$496.04 respectively.

From 1 January 2010 these costs will increase by \$208.36 for **all** applications located within the Central Land Council boundary area.

The increase will be borne by this Department for all applications already lodged, or yet to be lodged, up to and including 31 December 2009.

Application forms and guidelines on our website will be amended to reflect the change prior to the 1 January 2010.
