

## Mango Flowering Survey No 1 - 2006

Greg Owens, Senior Extension Officer, DPIFM Darwin

DPIFM and NTMIA are collecting information to predict the fruiting pattern of the season. This information will be used to identify the timing of the harvest within the NT, information that will benefit you and the industry as a whole. All individual information will be confidential and only regional information will be published.

The analysis of the 2005 Mango Crop Timing Forecast for Darwin and Katherine is on the mango season information page on the DPIFM Crops, Forestry and Horticulture website, [www.horticulture.nt.gov.au](http://www.horticulture.nt.gov.au)

Please fill in the following survey on a whole farm basis, not for individual blocks, and **only record KP's** for this survey. There is room for 3 separate farms if you manage a number of orchards.

<b>Farm 1</b> _____	_____
<b>Farm 2</b> _____	_____
