

# BUILDING NOTE

Contact Officer: Peter Zagorski

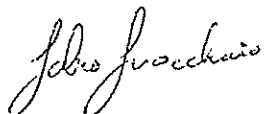

Edition Number: 56 20/06/2006

## SOLAR HOT WATER HEATERS INSTALLATION POLICY.

Attached is a policy for the installation of Solar Hot Water Heaters Adopted by the Building Advisory Committee to facilitate the installation of SHWH on **Existing Roofs** without the requirement to obtain a building permit. (Policy no. BAC/2006/1)

All Solar Hot Water Heaters installed as part of new building works (eg new roof, new dwelling or addition) must be included in the Building Permit and Occupancy Permit documentation.

For future property transactions owners should be encouraged to retain all documentation with regard to the installation of the SHWH as evidence that the installation has been carried out in accordance with this exemption.
