

## **Terms of Reference**

### **Rapid Creek Catchment Advisory Committee**

1. Progressively review the Rapid Creek Plan of Management.
2. Through advice, co-ordination and initiatives implement the Plan of Management maximising stakeholder involvement (seeking funding and implementing works).
3. Advocate the catchment values to the community.
4. Provide advice as appropriate on land use in the catchment.
5. Promote research on processes which affect catchment values. Collect and review relevant research and surveys carried out or affecting the catchment.
6. Report to the Minister (through the Controller of Water Resources) at least annually and more frequently as significant milestones are achieved.
