

DIGITAL DATA SUMMARY

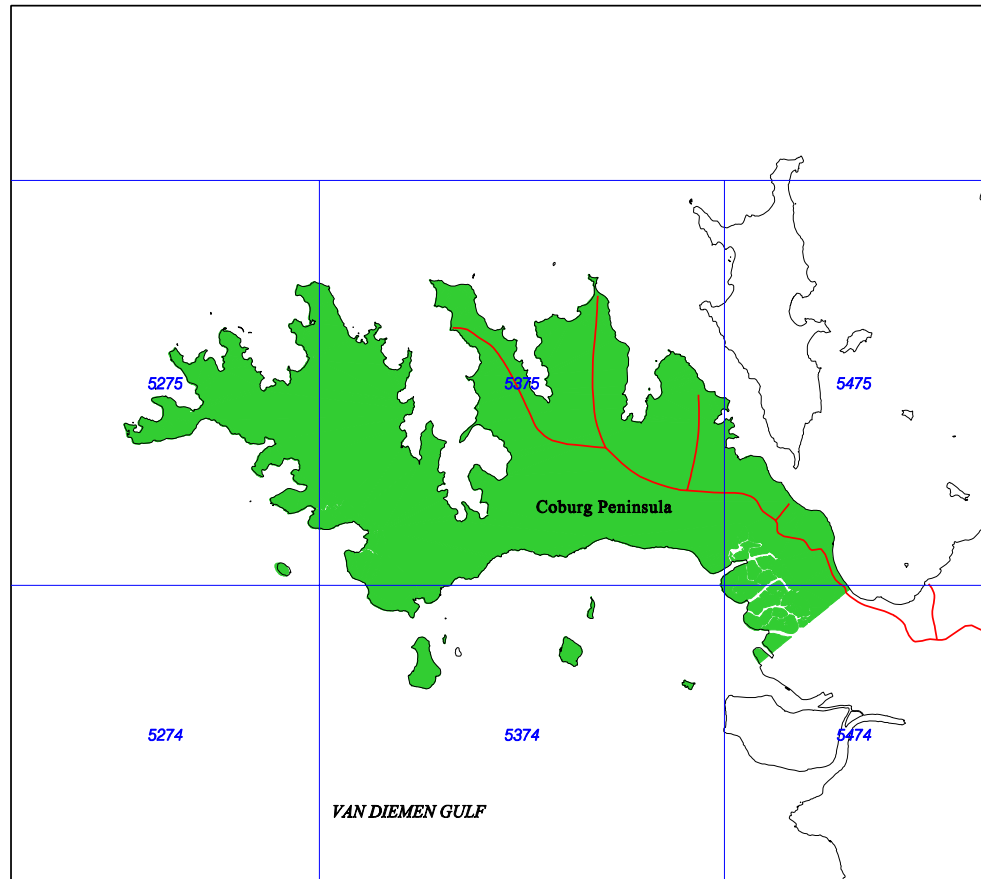

1:100 000 Topographic map sheet index

km 0 10 20 30

LOCATION MAP

SURVEY NAME GENERALISED VEGETATION COMMUNITIES OF COBOURG PENINSULA

DATASET NAME cobvg_100

SURVEY SCALE 1: 100,000

SPATIAL EXTENT -11.1160° to -11.6290° South, 131.7580° to 132.6650° East

PROJECTION Geographics, GDA94

DATA USE This digital dataset should not be used at scales greater than 1: 100,000. The data source, bibliographic reference and vegetation information statement should be cited on any product derived from this dataset.

BIB. REFERENCE Brocklehurst, P.S. (1998)

VEGETATION RESOURCE INFORMATION

Vegetation resource information has been derived from aerial photograph interpretation and field data describing vegetation community type, composition and distribution collected according to Australian Soil and Land Survey Standards at time of capture. This survey data has been prepared at a scale of **1: 100,000**. Enlarging the data beyond this scale will not provide further detail. Field verification should always accompany any mapping over specific areas.
