24.02.11

Temporary Closure of Florence Falls Campground

Florence Falls 2WD Campground, located in Litchfield National Park, will be temporarily closed for five weeks so that the Department of Natural Resources, Environment, The Arts and Sport (NRETAS) can undertake works to refit the toilet block.

The \$230,000 upgrade includes upgrades to the toilet facilities with a new septic system, and the installation of solar lighting and a solar hot water system.

These upgrades will improve visitors experience at Litchfield National Park, which is visited by more than a quarter of a million people each year.

The Campground will be closed from Monday, 28 February 2011 to Monday, 4 April 2011. The closures at the campground will not impact on swimming access to Florence Falls.

For up to date information regarding access to parks and reserves administered by NRETAS go to www.nt.gov.au/nreta/parks
