

TABLE OF CONTENTS

1.	INTRODUCTION	1
2.	GOAL	1
3.	GUIDING PRINCIPLES	2
4.	OBJECTIVES	4
5.	BACKGROUND	4
5.1	<i>BIOREGIONAL CONSERVATION PLANNING</i>	4
5.2	<i>THE FINKE BIOREGION</i>	7
5.3	<i>WILDLIFE OF THE FINKE BIOREGION</i>	9
5.4	<i>SOCIAL VALUES OF THE FINKE BIOREGION</i>	12
5.5	<i>POTENTIAL AND EXISTING THREATENING PROCESSES</i>	14
5.6	<i>THE NEW NORTHERN TERRITORY PARKS AND CONSERVATION MASTERPLAN</i>	17
6.	CONSERVATION RECOMMENDATIONS	18
6.1	<i>INTRODUCTION</i>	18
6.2	<i>PAST APPROACHES TO CONSERVATION</i>	19
6.3	<i>RECOMMENDED APPROACH</i>	19
6.4	<i>PRIORITIES FOR CONSERVATION PLANNING AND MANAGEMENT</i>	20
6.4.1	<i>Assessment Criteria</i>	20
6.4.2	<i>Habitats</i>	21
6.4.3	<i>Wetlands</i>	26
6.4.4	<i>Sites of Botanical Significance and Fauna ‘Hotspots’</i>	26
6.4.5	<i>Assemblages</i>	27
6.4.6	<i>Species</i>	28
6.5	<i>ROLES AND RESPONSIBILITIES</i>	30
APPENDIX 1: NORTHERN TERRITORY GOVERNMENT STRUCTURES		32
A1.1	<i>INTRODUCTION</i>	32
A1.2	<i>DEPARTMENT OF INFRASTRUCTURE, PLANNING AND ENVIRONMENT (DIPE)</i>	32
A1.3	<i>DEPARTMENT OF BUSINESS, INDUSTRY AND RESOURCE DEVELOPMENT (DBIRD)</i>	34
APPENDIX 2: THE FINKE BIOREGION		35
A2.1	<i>PHYSICAL CHARACTERISTICS</i>	35
A2.2	<i>SOCIAL STRUCTURE AND LAND USES</i>	37
A2.3	<i>PASTORAL INDUSTRY IN THE FINKE BIOREGION</i>	38
A2.4	<i>CONSERVATION / ENVIRONMENTAL PROJECTS IN THE FINKE BIOREGION</i>	41
APPENDIX 3: WILDLIFE OF THE FINKE BIOREGION		48
A3.1	<i>INTRODUCTION</i>	48
A3.2	<i>APPROACH TO WILDLIFE SURVEY AND DATA ANALYSES</i>	49
A3.2.1	<i>Survey Stratification and Site Selection</i>	49
A3.2.2	<i>Survey Methodology</i>	60
A3.2.3	<i>Determination of Species of Conservation Significance</i>	61
A3.2.4	<i>Analysis of Quadrat-based Survey Data</i>	63
A3.2.5	<i>Limitations</i>	66

A3.3	FLORA OF THE FINKE BIOREGION	67
A3.3.1	Introduction.....	67
A3.3.2	Frequency of Plant Records.....	67
A3.3.3	The Finke Bioregion's Flora in Context.....	70
A3.3.4	Finke-centric Plant Taxa.....	71
A3.3.5	Threatened Plant Taxa.....	73
A3.3.6	Reservation Status.....	75
A3.3.7	Species Richness and Abundance.....	82
A3.3.8	Species Composition.....	97
A3.3.9	Species Associations.....	103
A3.3.10	Discussion.....	125
A3.4	FAUNA OF THE FINKE BIOREGION	136
A3.4.1	Introduction.....	136
A3.4.2	Frequency of Animal Records.....	137
A3.4.3	The Finke Bioregion's Fauna in Context.....	138
A3.4.4	Finke-centric Animal Species.....	139
A3.4.5	Threatened Animal Species.....	141
A3.4.6	Reservation Status.....	148
A3.4.7	Species Richness and Abundance.....	151
A3.4.8	Species Composition.....	165
A3.4.9	Species Associations.....	172
A3.4.10	Discussion.....	181
APPENDIX 4: SOCIAL VALUES OF THE FINKE BIOREGION		189
A4.1	INTRODUCTION.....	189
A4.2	SACRED SITES.....	190
A4.3	ABORIGINAL ARCHAEOLOGICAL SITES.....	195
A4.4	HISTORICAL SITES.....	199
A4.5	RECREATIONAL / TOURISM VALUES.....	208
A4.6	INFORMATION SOURCES.....	210
APPENDIX 5: POTENTIAL AND EXISTING THREATENING PROCESSES		211
A5.1	INTRODUCTION.....	211
A5.2	WEEDS.....	211
A5.2.1	Declared Weeds.....	211
A5.2.2	Introduced Plant Taxa / Environmental Weeds.....	223
A5.2.3	Frequency of Weeds.....	232
A5.3	INTRODUCED ANIMAL SPECIES.....	233
A5.4	FIRE.....	243
A5.5	EROSION.....	247
A5.6	PASTORALISM.....	255
A5.7	LAND CLEARANCE.....	257
A5.8	MINING / EXPLORATION.....	260
A5.9	MILITARY EXERCISES.....	262
A5.10	CLIMATE CHANGE.....	263
A5.11	ISSUES OF CONCERN TO LANDHOLDERS.....	264

APPENDIX 6: FINKE BIOREGION ECOSYSTEMS - CONSERVATION VALUES AND THREATENING PROCESSES	266
A6.1 INTRODUCTION.....	266
A6.2 MAJOR HABITATS OF THE FINKE BIOREGION.....	267
A6.2.1 Description of Habitats, Biodiversity Values and Threatening Processes.....	267
A6.2.2 Priority Habitats for Conservation Planning and Management	290
A6.3 OTHER FINKE BIOREGION HABITATS OF CONSERVATION VALUE	293
A6.3.1 Wetlands and Mesic Areas.....	293
A6.3.2 Sites and Taxa of Botanical Significance, and Fauna 'Hotspots'	298
A6.3.3 Other Characteristic Vegetation Types	314
APPENDIX 7: MONITORING AND RESEARCH	315
A7.1 INTRODUCTION.....	315
A7.2 MONITORING.....	315
A7.3 FUTURE RESEARCH.....	316
APPENDIX 8: SUMMARY OF WILDLIFE DATA.....	319
A8.1 SUMMARY OF WILDLIFE SURVEY METHODS.....	319
A8.2 PLANT TAXA RECORDED FROM THE FINKE BIOREGION.....	330
A8.3 PLANT PROFILES.....	345
A8.4 VERTEBRATE FAUNA RECORDED FROM THE FINKE BIOREGION.....	360
A8.5 VERTEBRATE FAUNA PROFILES.....	366
APPENDIX 9: ACKNOWLEDGEMENTS.....	401
APPENDIX 10: REFERENCES.....	402

ACRONYMS USED IN THIS REPORT

AAPA	Aboriginal Areas Protection Authority
AFFA	Agriculture, Fisheries and Forestry Australia (Australian Government)
ALEC	Arid Lands Environment Centre
ANZECC	Australian and New Zealand Environment and Conservation Council
ARMCANZ	Agriculture and Resource Management Council of Australia and New Zealand
BMR	Bureau of Mineral Resources
BTEC	Brucellosis and Tuberculosis Eradication Campaign
CACIA	Central Australian Camel Industry Association
CLC	Central Land Council
CLMA	Centralian Land Management Association
CNR	Conservation and Natural Resources (Group of DIPE, Northern Territory Government)
CR	Conservation Reserves
CRC	Co-operative Research Centre
DBIRD	Department of Business, Industry and Resource Development (Northern Territory Government)
DEH	Department of the Environment and Heritage (Australian Government; formerly Environment Australia)
DIPE	Department of Infrastructure, Planning and Environment (Northern Territory Government)
DLPE	Department of Lands, Planning and Environment (now part of DIPE, Northern Territory Government)
DPIF	Department of Primary Industry and Fisheries (now part of DBIRD, Northern Territory Government)
DW	Distance from Waterpoint
EA	Environment Australia (now the Department of the Environment and Heritage (DEH), Australian Government)
EMS	Environmental Management Systems
EPBC Act	The Australian Government's <i>Environment Protection and Biodiversity Conservation Act 1999</i> .
ESD	Ecologically Sustainable Development
GIS	Geographic Information System
HR	Historical Reserves
IBRA	Interim Biogeographic Regionalisation for Australia
IDCO	Interim Development Control Order
IPA	Indigenous Protected Area
LFC	Landform Class
LSC	Land System Class
NHT	Natural Heritage Trust
OTL	Overland Telegraph Line
PWCNT	Parks and Wildlife Commission of the Northern Territory (now part of DIPE, Northern Territory Government)
QNPWS	Queensland National Parks and Wildlife Service
MDS	Multi-dimensional Scaling
NGO	Non-Government Organisation
NP	National Parks
NRM	Natural Resource Management
NRMCC	Natural Resource Management Ministerial Council
PMP	Property Management Plan
RHD	Rabbit Haemorrhagic Disease
RHDV	Rabbit Haemorrhagic Disease Virus
SADEH	South Australian Department for Environment and Heritage
T&W	Department of Transport and Works (now part of DIPE, Northern Territory Government)
TP	Topographic Position
TSN	Threatened Species Network
VC	Vegetation Class

LIST OF TABLES

Table 5.1	Condition attributes by subregion for the Finke Bioregion used to derive a landscape stress class.	6
Table 6.1	Criteria used to assess the relative conservation value of habitats, assemblages and species of the Finke Bioregion.	20
Table A1.1	Key responsibilities of Divisions within the Conservation and Natural Resources Group of the Department of Infrastructure, Planning and Environment (DIPE).	33
Table A1.2	Key responsibilities of each Group of the Department of Business, Industry and Resource Development (DBIRD).	34
Table A2.1	Protected areas in or intersecting the Finke Bioregion.	38
Table A2.2	Brief history of the development of the pastoral industry in the southern Alice Springs region.	38
Table A2.3	Summary of projects with conservation / environmental outcomes which have been undertaken in, but not necessarily confined to, the Finke Bioregion in the Northern Territory, or are relevant to land management issues in the bioregion.	41
Table A3.1	Description of land system classes of the Finke Bioregion and their abbreviated codes.	51
Table A3.2	Survey sites in relation to the LSC-TP-DW stratification units.	54
Table A3.3	'Special condition' survey sites.	57
Table A3.4	Landform and vegetation classes of the Finke Bioregion and their abbreviated codes.	64
Table A3.5	Interpretation of non-metric Multi-dimensional Scaling (MDS) stress values.	65
Table A3.6	New records for significant plant taxa of the Finke Bioregion.	69
Table A3.7	Similarity of the flora of the Finke Bioregion with neighbouring bioregions and Alice Springs region conservation reserves.	71
Table A3.8	Native plant taxa with at least 75% of their records in the Finke Bioregion.	72
Table A3.9	Threatened and data deficient plant taxa that have been recorded from the Finke Bioregion.	73
Table A3.10	Near threatened plant taxa that have been recorded from the Finke Bioregion.	74
Table A3.11	Poorly reserved native plant taxa that have been recorded from the Finke Bioregion.	76
Table A3.12	Summary of plant groups recorded from 197 sites used to sample both flora and fauna.	82
Table A3.13	Variation in abundance of commonly recorded plant taxa in relation to Land System Class (LSC).	84
Table A3.14	Plant taxa that are confined to particular land system classes based on the analysis of 109 sites.	90
Table A3.15	Variation in abundance of commonly recorded plant taxa in relation to Topographic Position (TP) and Distance from Waterpoint (DW) classes.	91
Table A3.16	Characteristic plant taxa of each Land System Class (LSC).	98
Table A3.17	Characteristic plant taxa of each Distance from Waterpoint (DW) class, and characteristic perennial and introduced plant taxa of each Topographic Position (TP) class.	101

Table A3.18	Site-based attributes influencing the composition of different flora groups from the BVSTEP analysis of flora data.....	103
Table A3.19	Diagnostic plant taxa for each cluster group of sites (6-group level) shown in Figure A3.10.	106
Table A3.20	Relative importance of each cluster group of sites (6-group level) in terms of subgroup and species diversity.	107
Table A3.21	Relative importance of each cluster group of sites (21-group level). ...	115
Table A3.22	Diagnostic plant taxa for each cluster group of sites (21-group level) shown in Figure A3.10.	118
Table A3.23	Description of vegetation types associated with habitats derived from the cluster analysis of 227 sites based on their plant composition.	122
Table A3.24	Similarity of the vertebrate fauna of the Finke Bioregion with neighbouring bioregions and Alice Springs region conservation reserves.....	139
Table A3.25	Vertebrate animal species with at least 25% of their records in the Finke Bioregion.....	140
Table A3.26	Threatened and data deficient vertebrate animal species that have been recorded from the Finke Bioregion.....	143
Table A3.27	Near threatened vertebrate animal species that have been recorded from the Finke Bioregion.....	146
Table A3.28	Changes to the conservation status of vertebrate animal species occurring in the Finke Bioregion under the <i>Territory Parks and Wildlife Conservation Amendment Act 2000</i>	146
Table A3.29	Poorly reserved native vertebrate animal species that have been recorded from the Finke Bioregion.....	150
Table A3.30	Summary of taxonomic groups recorded from quadrat-based sites.....	152
Table A3.31	Variation in abundance of vertebrate animal species in relation to Landform Class (LFC).....	154
Table A3.32	Variation in abundance of vertebrate animal species in relation to Vegetation Class (VC).	156
Table A3.33	Variation in abundance of vertebrate animal species in relation to Land System Class (LSC).....	160
Table A3.34	Variation in abundance of vertebrate animal species in relation to Topographic Position (TP) and Distance from Waterpoint (DW) classes.	162
Table A3.35	Characteristic vertebrate animal species of each Landform Class (LFC).	168
Table A3.36	Characteristic vertebrate animal species of each Vegetation Class (VC).	169
Table A3.37	Characteristic vertebrate animal species of each Land System Class (LSC).	170
Table A3.38	Characteristic birds of each Topographic Position (TP) class.....	171
Table A3.39	Diagnostic vertebrate animal species for each cluster group of sites shown in Figure A3.17.....	172
Table A3.40	Diagnostic bird species for each cluster group of sites shown in Figure A3.18.	174
Table A3.41	Diagnostic native mammal species for each cluster group of sites shown in Figure A3.19.	177
Table A3.42	Diagnostic reptile species for each cluster group of sites shown in Figure A3.20.	178

Table A4.1	Summary information on 154 registered and recorded Aboriginal sites and named places in the Finke Bioregion shown in Figure A4.1.....	191
Table A4.2	Summary information on 79 registered archaeological sites in the Finke Bioregion shown in Figure A4.2.....	196
Table A4.3	Summary information on some of the known historical sites in the Finke Bioregion shown in Figure A4.3.....	200
Table A5.1	Weeds currently declared in the Northern Territory that are known to occur, or have occurred, in the Finke Bioregion.	212
Table A5.2	Introduced plant taxa / environmental weeds known to occur in the Finke Bioregion.....	224
Table A5.3	Introduced vertebrate animal species known to occur, or have occurred, in the Finke Bioregion.	234
Table A5.4	Land Systems and Land Units of the Finke Bioregion rated on their potential for soil erosion.	251
Table A5.5	Issues of concern to pastoral landholders in the Finke Bioregion.....	265
Table A6.1	Assessment of important biological values for Finke Bioregion land system classes, and the threats to their ecological integrity.....	285
Table A6.2	Important Wetlands of the Finke Bioregion.	293
Table A6.3	Wetland bird species recorded from the Finke Bioregion that are protected under bilateral conservation treaties.....	294
Table A6.4	Rare, threatened and poorly known plant taxa recorded from temporary watercourses and associated run-on habitats in the Finke Bioregion.....	295
Table A6.5	Rare, threatened and poorly known plant taxa associated with swamp habitats in the Finke Bioregion.....	296
Table A6.6	Sites of botanical significance in or intersecting the Finke Bioregion.	299
Table A6.7	Significant plant taxa occurring in the Finke Bioregion.	300
Table A6.8	Frequency of extant endangered, vulnerable, lower risk-near threatened or data deficient vertebrate animal records in each Land System Class for the Finke Bioregion.	313
Table A8.1	Conservation and Natural Resources, Biodiversity (South) habitat and vegetation attribute proforma.....	322
Table A8.2	Plant taxa recorded from the Finke Bioregion	330
Table A8.3	Significant plant taxa of the Finke Bioregion and surrounds for which a profile follows.....	345
Table A8.4	Vertebrate fauna recorded from the Finke Bioregion.....	360
Table A8.5	Significant vertebrate fauna species of the Finke Bioregion and surrounds for which a profile follows.	366

LIST OF BOXES

Box 1	Conservation Strategies and Initiatives.....	7
Box 2	Cluster Groups at the 9-Group Level	111
Box 3	Cluster Groups at the 10-Group Level	114
Box 4	Data Agreement Between AAPA and PWCNT.....	190
Box 5	Land Clearing Policy and Regulations in the Northern Territory.....	259

LIST OF FIGURES

Figure 5.1	Bioregions of the Northern Territory.....	5
Figure 5.2	Subregions of the Finke Bioregion.....	6
Figure 5.3	The topography of the Finke Bioregion.....	8
Figure 5.4	Landsat MSS 421 RGB image of the Finke Bioregion.....	8

LIST OF PLATES

Plate A3.1	Red-tailed Black-cockatoo <i>Calyptorhynchus banksii samueli</i>	147
Plate A3.2	Flock Bronzewing <i>Phaps histrionica</i>	147
Plate A3.3	Pale Field-rat <i>Rattus tunneyi</i>	147
Plate A3.4	Centralian Carpet Python <i>Morelia bredli</i>	147
Plate A3.5	King Brown Snake <i>Pseudechis australis</i>	147
Plate A3.6	Western Brown Snake <i>Pseudonaja nuchalis</i>	147
Plate A3.7	Centralian Blind Snake <i>Ramphotyphlops centralis</i>	148
Plate A3.8	Eastern Blue-tongued Lizard <i>Tiliqua scincoides scincoides</i>	148
Plate A3.9	Ridge-tailed Monitor <i>Varanus acanthurus</i>	148
Plate A3.10	Black-tailed Monitor <i>Varanus tristis</i>	148
Plate A4.1	The original Deep Well Homestead.....	205
Plate A4.2	The original 'Deep Well'	205
Plate A4.3	The Pinch	205
Plate A4.4	Railway house at Deep Well Siding	205
Plate A4.5	Bokhara Homestead	205
Plate A4.6	Sheep yards at Bokhara Homestead	205
Plate A4.7	Mt. Burrell Homestead	205
Plate A4.8	Police Station at Alice Well	205
Plate A4.9	Stone dump around Alice Well.....	206
Plate A4.10	Old Maryvale Homestead	206
Plate A4.11	Hell's Gate.....	206
Plate A4.12	Old Kulgera Homestead.....	206
Plate A4.13	Kraegan's Grave.....	206
Plate A4.14	Bundooma Railway Siding	206
Plate A4.15	Engoordina Railway Siding	206
Plate A4.16	Rodinga Railway Siding.....	206
Plate A4.17	Old Ghan Railway Heritage Trail interpretive sign at Ewaninga	207
Plate A4.18	Finke Railway Office	207
Plate A4.19	Stockyards at Crown Well.....	207
Plate A4.20	The Old South / Maryvale Road.....	207
Plate A4.21	Chamber's Pillar Historical Reserve.....	207
Plate A5.1	Khaki Weed <i>Alternanthera pungens</i>	219
Plate A5.2	Mexican Poppy <i>Argemone ochroleuca</i> subsp. <i>ochroleuca</i>	219
Plate A5.3	Rubber Bush <i>Calotropis procera</i>	219
Plate A5.4	Saffron Thistle <i>Carthamus lanatus</i>	219
Plate A5.5	Mossman River Grass <i>Cenchrus echinatus</i>	219
Plate A5.6	Longspine Thornapple <i>Datura ferox</i>	219
Plate A5.7	Downy Thornapple <i>Datura innoxia</i>	220
Plate A5.8	Paterson's Curse <i>Echium plantagineum</i>	220
Plate A5.9	Spiny Emex <i>Emex australis</i>	220
Plate A5.10	Devil's Rope Pear <i>Opuntia imbricata</i>	220
Plate A5.11	Common Prickly Pear <i>Opuntia stricta</i> var. <i>stricta</i>	220
Plate A5.12	Parkinsonia <i>Parkinsonia aculeata</i>	220
Plate A5.13	Mesquite <i>Prosopis pallida</i>	220

Plate A5.14	Castor Oil Plant <i>Ricinus communis</i>	220
Plate A5.15	Coffee Senna <i>Senna occidentalis</i>	220
Plate A5.16	Spiny-head Sida <i>Sida acuta</i>	221
Plate A5.17	Athel Pine <i>Tamarix aphylla</i>	221
Plate A5.18	Caltrop <i>Tribulus terrestris</i>	221
Plate A5.19	Bathurst Burr <i>Xanthium spinosum</i>	221
Plate A5.20	Noogoora Burr <i>Xanthium strumarium</i>	221
Plate A5.21	Buffel Grass <i>Cenchrus ciliaris</i>	231
Plate A5.22	Couch Grass <i>Cynodon dactylon</i>	231
Plate A5.23	Wild Turnip <i>Brassica tournefortii</i>	231
Plate A5.24	Ruby Dock <i>Acetosa vesicaria</i>	231
Plate A5.25	Tall Fleabane <i>Conyza bonariensis</i>	231
Plate A5.26	Pitted Lovegrass <i>Eragrostis barrelieri</i>	231
Plate A5.27	Spiked Malvastrum <i>Malvastrum americanum</i>	231
Plate A5.28	Wild Sage <i>Salvia verbenaca</i>	231
Plate A6.1	Sandstone & Quartzite Ranges (Run-off).....	286
Plate A6.2	Sandstone & Quartzite Ranges (Run-on).....	286
Plate A6.3	High Stony Plateaux (Run-off).....	286
Plate A6.4	High Stony Plateaux (Run-on).....	286
Plate A6.5	Mesas & Stony Lowlands (Run-off).....	286
Plate A6.6	Mesas & Stony Lowlands (Run-on).....	286
Plate A6.7	Granite Hills & Slopes (Run-off).....	286
Plate A6.8	Granite Hills & Slopes (Run-on).....	286
Plate A6.9	Limestone Ranges (Run-off).....	287
Plate A6.10	Limestone Ranges (Run-on).....	287
Plate A6.11	Undulating Limestone Country (Run-off).....	287
Plate A6.12	Undulating Limestone Country (Run-on).....	287
Plate A6.13	Open & Undulating Country in the North (Run-off).....	287
Plate A6.14	Open & Undulating Country in the North (Run-on).....	287
Plate A6.15	Steep Hills & Broken Stony Plains (Run-off).....	287
Plate A6.16	Steep Hills & Broken Stony Plains (Run-on).....	287
Plate A6.17	Granite & Red Earth Plains in the South (Run-off).....	288
Plate A6.18	Granite & Red Earth Plains in the South (Run-on).....	288
Plate A6.19	Sandy Southern Plains (Run-off).....	288
Plate A6.20	Sandy Southern Plains (Run-on).....	288
Plate A6.21	Sandplain (Run-off).....	288
Plate A6.22	Sandplain (Run-on).....	288
Plate A6.23	Dunefields with Wilson <i>et al.</i> (1990) Vegetation Unit 82 (Run-off).....	288
Plate A6.24	Dunefields with Wilson <i>et al.</i> (1990) Vegetation Unit 82 (Run-on).....	288
