Finnis / Reynolds rivers	7
Gulf	2
North East Arnhemland	5
Oenpelli / Cobourg	10
Roper river	2
Tiwi	6
Victoria / Fitzmaurice / Keep rivers	4

## Disclaimer:

The proportions in the table reflect average figures, based on up to 5 years (2004/05-2008/09) harvest data. These figures will be used to guide allocation on the regional catchment basis.

Due to a number of factors, including unseasonal rain and nest flooding, permit issuing delays and the impact of the global financial crisis, the 2009-2010 harvest data was not used in determining averages for the 2010-2011 allocation.
