- 2 It is an offence to contravene this notice.

SCHEDULE 1

RESTRICTIONS FOR THE CONTROL OF  
PARATUBERCULOSIS (JOHNE'S DISEASE)  
BUFFALO, CATTLE AND GOATS

**1 Interpretation**

- (1) In this Schedule:

**Control Zone** has the same meaning as in the NJDP.

**export yard** means an area of land that incorporates secure livestock yard facilities for holding and fattening livestock and is approved in writing by an inspector as an export yard.

**Free Zone** has the same meaning as in the NJDP.

**NJDP** means the document entitled "National Johne's Disease Program – Standard Definitions and Rules for cattle and for goats, deer and camelids infected with cattle strains of *Mycobacterium avium* subsp *paratuberculosis*" published by the Animal Health Committee and in force from time to time.

**non-restricted herd** means a herd that is not subject to any prohibitions or restrictions in relation to Johne's disease under a law of a State or another Territory.

**Protected Zone** has the same meaning as in the NJDP.

**Residual Zone** has the same meaning as in the NJDP.

- (2) In this Schedule, a reference to a herd status of a Monitored Negative of a particular number is a reference to the herd status of that name and number in the NJDP.

## 2 Entry of buffalo and non-dairy cattle

The owner of buffalo, or cattle that are not dairy cattle, who brings the prescribed imported livestock into the Territory must ensure the livestock:

- (a) are:
- (i) from a non-restricted herd ordinarily kept or depastured on a property or holding in a Free Zone or Protected Zone; or
  - (ii) from a herd in a Control Zone or Residual Zone that, immediately before the proposed date of entry, had a herd status of Monitored Negative 1, Monitored Negative 2 or Monitored Negative 3 under the National Johne's Disease Market Assurance Program; or
  - (iii) from a herd in a Control Zone or Residual Zone that has a beef only animal health statement for Johne's disease status of cattle beef; or
- (b) if not from a herd mentioned in paragraph (a):
- (i) travel in a vehicle from the property or holding on which they are ordinarily kept or depastured without being unloaded except at an abattoir, port or export yard in the Territory; and
  - (ii) are slaughtered at the abattoir, or exported out of the Territory from the port or export yard, as soon as reasonably practicable after their arrival.

## 3 Entry of dairy cattle

The owner of dairy cattle who brings the prescribed imported livestock into the Territory must ensure the livestock:

- (a) are:
- (i) from a non-restricted herd ordinarily kept or depastured on a property or holding in a Free Zone or Protected Zone; or
  - (ii) from a herd in a Control Zone that, immediately before the proposed date of entry, had a herd status of Monitored Negative 2 or Monitored Negative 3 under the National Johne's Disease Market Assurance Program or a Dairy Assurance Score (DAS) of 9 or higher; or
- (b) if not from a herd mentioned in paragraph (a):
- (i) travel in a vehicle from the property or holding on which they are ordinarily kept or depastured without being unloaded except at an abattoir, port or export yard in the Territory; and

- (ii) are slaughtered at the abattoir, or exported out of the Territory from the port or export yard, as soon as reasonably practicable after their arrival.

## 4 Entry of goats

The owner of goats who brings the prescribed imported livestock into the Territory must ensure the livestock:

- (a) are from a non-restricted herd ordinarily kept or depastured on a property or holding in a Free Zone or Protected Zone; or
- (b) have a Market Assurance Score of at least 5 under the Goat Assurance Scheme for Johne's Disease.

## SCHEDULE 2

### RESTRICTIONS FOR THE CONTROL OF PARATUBERCULOSIS (JOHNE'S DISEASE) AND BLUETONGUE (CLINICAL DISEASE)

#### SHEEP

## 1 Interpretation

In this Schedule:

**ABC score** has the same meaning as in the Management Guidelines.

**export yard** means an area of land that incorporates secure livestock yard facilities for holding and fattening livestock and is approved in writing by an inspector as an export yard.

**Infected flock** has the same meaning as in the Management Guidelines.

**Management Guidelines** means the document entitled "Guidelines for the Implementation of Assurance Based Ovine Johne's Disease Management in Sheep" published by Animal Health Australia and in force from time to time.

**Suspect flock** means a flock that is suspected to be infected with Ovine Johne's Disease, within the meaning of the Management Guidelines.

## 2 Entry of sheep

For the control of Ovine Johne's Disease, the owner of sheep who brings the prescribed imported livestock into the Territory must ensure that:

- (a) if the sheep are from an Infected flock or Suspect flock – they:
  - (i) travel in a vehicle from the property or holding on which they are ordinarily kept or depastured without being unloaded except at an abattoir, port or export yard in the Territory; and
  - (ii) are slaughtered at the abattoir, or exported out of the Territory from the port or export yard, as soon as reasonably practicable after their arrival; or
- (b) if the sheep are not from a flock mentioned in paragraph (a) – they have an ABC score of at least 3.

## 3 Permission required for entry of sheep

For the control of clinical Bluetongue disease in sheep, the owner of sheep mentioned in clause 2 must, before bringing them into the Territory, obtain the written permission of the Chief Inspector for the entry.

SCHEDULE 3  
RESTRICTIONS FOR THE CONTROL OF  
CATTLE TICKS (*RHIPICEPHALUS MICROPLUS*)  
IN TICK FREE AREAS  
VARIOUS PRESCRIBED IMPORTED LIVESTOCK

**1 Definitions**

In this Schedule:

**adjoining property** means a property or holding that:

- (a) is in a protected area; and
- (b) is not an infected property; and
- (c) adjoins:
  - (i) an infected area; or
  - (ii) an infected property in a protected area.

**clean inspection**, of restricted livestock, means:

- (a) an inspection of the livestock by an inspector; and
- (b) an endorsement by an inspector on the health certificate for the livestock that they are free of visible ticks or free of ticks containing bodily fluids.

**entry period**, for clause 2(c), 3(c) or 4(b), means:

- (a) the 48 hours immediately after completion of the inspection or treatment (or both) of the restricted livestock; or
- (b) a longer period, as approved by an inspector and endorsed on the health certificate for the livestock.

**free area** means an area of New South Wales, Queensland or Western Australia to which no prohibitions or restrictions relating to cattle tick infestation apply.

**infected area** means:

- (a) the Queensland Cattle Tick Infected Area; or
- (b) the Western Australian Infected Area.

**infected property** means a property or holding that is declared under a law of a State or another Territory to be infected with cattle tick.

**inspector** means a person employed by a State or Territory as an inspector of livestock (however described).

**non-adjointing property** means a property or holding in a protected area that is not an infected property or adjoining property.

**pre-movement period**, for clause 2(a) and (b), 3(a) and (b) or 4(a), means:

- (a) the 48 hours immediately before the restricted livestock are moved from the place where the treatment or inspection (or both) of the livestock is completed; or
- (b) a longer period, as approved by an inspector and endorsed on the health certificate for the livestock.

**protected area** means an area of Queensland that is a protected area in relation to cattle tick.

**restricted livestock** means buffalo, camels, cattle, goats, horses, sheep, deer, alpacas or llamas.

**supervised treatment (infected area)**, of restricted livestock, means:

- (a) full immersion of the livestock, under the supervision and with the approval of an inspector,

in a solution certified no earlier than 60 days before the immersion to be suitable for that purpose; or

- (b) treatment of the livestock in accordance with the directions and under the supervision of an inspector.

**supervised treatment (protected area)**, of restricted livestock, means:

- (a) full immersion of the livestock, under the supervision and with the approval of an inspector, in a solution certified no earlier than 60 days before the immersion to be suitable for that purpose; or
- (b) treatment of the livestock, under the supervision and with the approval of an inspector, with macrocyclic lactone in accordance with the manufacturer's instructions; or
- (c) treatment of the livestock in accordance with the directions and under the supervision of an inspector.

**2 Entry from infected area or infected property**

The owner of restricted livestock who brings the livestock into the Territory from an infected area or infected property must ensure:

- (a) a clean inspection of the livestock has been completed within the pre-movement period, unless the Chief Inspector has directed otherwise; and
- (b) a supervised treatment (infected area) of the livestock has been completed within the pre-movement period, unless the Chief Inspector has directed otherwise; and
- (c) the livestock are moved into the Territory within the entry period.

**3 Entry from adjoining property**

The owner of restricted livestock who brings the livestock into the Territory from an adjoining property, must ensure:

- (a) a clean inspection of the livestock has been completed within the pre-movement period, unless the Chief Inspector has directed otherwise; and
- (b) a supervised treatment (protected area) has been completed within the pre-movement period, unless the Chief Inspector has directed otherwise; and
- (c) the livestock are moved into the Territory within the entry period.

**4 Entry from non-adjointing property**

The owner of restricted livestock who brings the livestock into the Territory from a non-adjointing property must ensure:

- (a) a clean inspection of the livestock has been completed within the pre-movement period, unless the Chief Inspector has directed otherwise; and
- (b) the livestock are moved into the Territory within the entry period.

**5 Movement from free area through infected area**

If restricted livestock are moved from a free area and through an infected area before being brought into the Territory, the owner of the livestock must ensure they:

- (a) do not travel on the hoof through the infected area; and
- (b) are not unloaded in the infected area.
