

**Electricity Reform Act**

NOTICE OF MAKING OF ELECTRICITY PRICING ORDER

I, DELIA PHOEBE LAWRIE, Treasurer, under section 44(8) of the *Electricity Reform Act*, give notice that:

- (a) an electricity pricing order regulating prices for the sale of electricity and other services to non-contestable customers has been made; and
- (b) the order will have the effect of regulating the maximum prices for the sale of electricity and other services to those customers from 1 July 2009 to 30 June 2013; and
- (c) copies of the order may be inspected at or obtained from any office of the Power and Water Corporation.

Dated 25th June, 2009.

D. P. LAWRIE

Electricity Reform Act

ELECTRICITY PRICING ORDER

I, DELIA PHOEBE LAWRIE, Treasurer, under section 44(1)(a) and (b) of the *Electricity Reform Act*, issue the electricity pricing order set out in the Schedule, to take effect on 1 July 2009 and remain in force to 30 June 2013.

Dated 25th June, 2009.

D. P. LAWRIE
Treasurer

SCHEDULE

ELECTRICITY PRICING ORDER

1 Definitions

In this electricity pricing order:

caravan park resident tariff customer means a non-contestable customer who is on-supplied electricity by the proprietor of a caravan park who is also a non-contestable customer and is supplied electricity by the Corporation.

commercial – Alice Springs Solar Cities customer means a non-contestable customer who purchases electricity primarily for reasons other than domestic use and elects to pay the commercial – Alice Springs Solar Cities tariff for a period of not less than 12 months.

commercial – demand tariff customer means a non-contestable customer who:

- (a) purchases electricity primarily for reasons other than domestic use; and
- (b) consumes, or is likely to consume, more than 160 000 kWh per annum; and
- (c) elects to pay the commercial – demand tariff (as specified in Tables 1, 2 and 3) for a period of not less than 12 months.

commercial – standard tariff customer means a non-contestable customer who purchases electricity

primarily for reasons other than domestic use and does not elect to pay the commercial – demand tariff or commercial – time of use tariff.

commercial – time of use tariff customer means a non-contestable customer who purchases electricity primarily for reasons other than domestic use and elects to pay the commercial – time of use tariff (as specified in Tables 1 and 4) for a period of not less than 12 months.

Corporation means the Power and Water Corporation.

domestic – Alice Springs Solar Cities customer means a non-contestable customer who purchases electricity primarily for domestic use and elects to pay the domestic – Alice Springs Solar Cities tariff for a period of not less than 12 months.

domestic pre-payment meter tariff customer means a non-contestable customer who purchases electricity primarily for domestic use, supplied through a pre-payment meter.

domestic – standard tariff customer means a non-contestable customer who:

- (a) purchases electricity primarily for domestic use; and
- (b) does not elect to pay the domestic – time of use tariff; and
- (c) does not purchase electricity through a pre-payment meter.

domestic – time of use tariff customer means a non-contestable customer who:

- (a) purchases electricity primarily for domestic use; and
- (b) consumes, or is likely to consume, more than 16 000 kWh per annum; and
- (c) elects to pay the domestic time of use tariff (as specified in Tables 1 and 4) for a period of not less than 12 months.

domestic use means use for domestic purposes and does not include use by government, commercial or not-for-profit organisations.

GreenPower accredited means accredited under the National GreenPower Accreditation Program.

kVA means kilovolt amps.

kWh means kilowatt hours.

non-contestable customer means an electricity customer who has not been granted a contestable customer certificate under the Electricity Reform (Administration) Regulations and whose annual electricity consumption for a given customer site does not exceed the minimum amount for a contestable customer as determined by the Schedule to those Regulations.

non-metered installation customer means a customer who purchases electricity for a type of installation mentioned in Table 5 or 6.

related services means:

- (a) services ancillary to the provision of electricity, if the Corporation has an effective monopoly in the provision of the ancillary services; and
- (b) services ancillary to the ownership or operation of the infrastructure associated with the provision of electricity.

retail prices means final GST inclusive prices for electricity and related services supplied to non-contestable customers by the Corporation in accordance with its retail licence, excluding a charge for a customer who elects to purchase Territory GreenPower in accordance with the GreenPower accredited Territory GreenPower scheme.

2 Application of electricity pricing order

- (1) This electricity pricing order only applies in relation to retail prices for electricity and related services supplied to non-contestable customers by the Corporation.
- (2) A price to which this electricity pricing order applies is to comply with a restriction on pricing specified in directions or notifications issued under sections 28, 29 and 30 of the *Government Owned Corporations Act*.

3 Electricity retail prices

- (1) The retail prices for electricity under this electricity pricing order are to distinguish between the following non-contestable customer groups:
 - (a) commercial – standard tariff customer;
 - (b) commercial – demand tariff customer;
 - (c) commercial – time of use tariff customer;
 - (d) commercial – Alice Springs Solar Cities customer;
 - (e) caravan park resident customer;
 - (f) non-metered installation customer;
 - (g) domestic – pre-payment meter tariff customer;
 - (h) domestic – standard tariff customer;
 - (i) domestic – time of use tariff customer;
 - (j) domestic – Alice Springs Solar Cities customer,
 in accordance with Tables 1 to 6.

- (2) Retail prices for electricity for all non-contestable customer groups mentioned in subclause (1) may only consist of:
 - (a) for all customer groups except domestic pre-payment meter tariff customers, non-metered installation customers and caravan park resident customers – fixed daily charges that do not exceed the amounts detailed in Table 1 for the periods 1 July 2009 to 30 June 2010 and 1 July 2010 to 30 June 2011; and
 - (b) for commercial – demand tariff customers – peak and off-peak energy usage charges and peak and off-peak demand charges that do not exceed the amounts detailed in Table 2 for the period 1 July 2009 to 30 June 2010 and Table 3 for the period 1 July 2010 to 30 June 2011; and
 - (c) for all customer groups except non-metered installation and commercial – demand tariff customers – usage charges that do not exceed the amounts detailed in Table 4 for the periods 1 July 2009 to 30 June 2010 and 1 July 2010 to 30 June 2011; and

- (d) for non-metered installation customers – charges per type of installation that do not exceed the amounts detailed in Tables 5 and 6.
- (3) Retail prices for electricity for all non-contestable customer groups mentioned in subclause (2)(a) to (c) for the periods 1 July 2011 to 30 June 2012 and 1 July 2012 to 30 June 2013 must be calculated in accordance with the formula:

$$p_t = p_{t-1}(1 + CPI_t)$$

where:

p_t is the price to be charged for the relevant service in the period; and

p_{t-1} is the price paid for the relevant service in the previous period; and

CPI_t means the consumer price index (CPI) factor used in the Northern Territory Government Budget for the period identified. If a CPI factor is not used in the Budget then CPI will mean an index determined by the Treasurer that is the best estimate of CPI.

4 Prices for related services

Prices for related services must be no more than a fair and reasonable amount taking into consideration the costs of providing the service in an efficient manner.

5 Role of Utilities Commission

The Utilities Commission is to:

- (a) monitor compliance with this electricity pricing order; and
- (b) enforce this order under section 23 of the *Utilities Commission Act* in the same way as if it were a determination under that *Act*; and
- (c) investigate any complaints made to the Utilities Commission by non-contestable customers that prices to which this order applies do not comply with this order.

TABLES

Table 1 – Fixed daily charge (\$/day) for all non-contestable customer groups except for pre-payment meter tariff customers, non-metered installation customers, and caravan park resident customers for the periods 1 July 2009 to 30 June 2010 and 1 July 2010 to 30 June 2011

Customer Group	Fixed Daily Charge (\$)	
	2009-10	2010-11
Commercial – standard tariff	0.5638	0.5920
Commercial – demand tariff	4.5481	4.7755
Commercial – time of use tariff	0.5638	0.5920
Commercial – Alice Springs Solar Cities tariff	0.5638	0.5920
Domestic – standard tariff	0.3611	0.3792
Domestic – time of use tariff	0.3611	0.3792
Domestic - Alice Springs Solar Cities tariff	0.3611	0.3792

Table 2 – Peak and off-peak monthly energy usage (cents/kWh) and demand charges (\$/kVA) for commercial – demand tariff customers for the period 1 July 2009 to 30 June 2010

Monthly Energy Usage Charge (cents/kWh)		
Monthly Energy Usage	Peak Period	Off-Peak Period
First 10 000 kWh	14.11	12.90
Next 20 000 kWh	13.98	12.74
Next 50 000 kWh	13.87	12.60
Next 100 000 kWh	13.70	12.47
Next 200 000 kWh	13.57	12.33
Next 200 000 kWh	13.43	12.19
Balance of monthly energy consumption	13.29	12.06
Monthly Demand Charge (\$/kVA)		
Monthly Maximum Demand	Peak Period	Off-Peak Period
First 50 kVA	31.54	4.15
Next 100 kVA	26.78	3.81
Next 300 kVA	26.05	3.47
Next 500 kVA	23.32	3.12
Next 1 000 kVA	20.57	2.91
Next 1 000 kVA	19.18	2.78
Balance of monthly energy demand	19.18	2.78

Table 3 – Peak and off-peak monthly energy usage (cents/kWh) and demand charges (\$/kVA) for commercial – demand tariff customers for the period 1 July 2010 to 30 June 2011

Monthly Energy Usage Charge (cents/kWh)		
Monthly Energy Usage	Peak Period	Off-Peak Period
First 10 000 kWh	14.82	13.55
Next 20 000 kWh	14.68	13.38
Next 50 000 kWh	14.56	13.23
Next 100 000 kWh	14.39	13.09
Next 200 000 kWh	14.25	12.95
Next 200 000 kWh	14.10	12.80
Balance of monthly energy consumption	13.95	12.66
Monthly Demand Charge (\$/kVA)		
Monthly Maximum Demand	Peak Period	Off-Peak Period
First 50 kVA	33.12	4.36
Next 100 kVA	30.22	4.00
Next 300 kVA	27.35	3.64
Next 500 kVA	24.49	3.28
Next 1 000 kVA	21.60	3.06
Next 1 000 kVA	20.14	2.92
Balance of monthly energy demand	20.14	2.92

Table 4 – Usage charges (c/kWh), all customer groups except for non-metered installation customers and commercial – demand tariff customers for the periods 1 July 2009 to 30 June 2010 and 1 July 2010 to 30 June 2011

Customer Group	Usage Charge (cents/kWh)	
	2009-10	2010-11
Commercial – standard tariff	21.30	22.37
Commercial – time of use tariff (peak)	27.27	28.63
Commercial – time of use tariff (off-peak)	15.35	16.12
Commercial – Alice Springs Solar Cities tariff (peak)	27.27	28.63
Commercial – Alice Springs Solar Cities tariff (off-peak)	15.35	16.12
Caravan park resident	24.44	25.66
Domestic – pre-payment meter tariff	20.13	21.14
Domestic – standard tariff	18.31	19.23
Domestic – time of use tariff (peak)	18.31	19.23
Domestic – time of use tariff (off-peak)	15.35	16.12
Domestic – Alice Springs Solar Cities tariff (peak)	27.27	28.63
Domestic – Alice Springs Solar Cities tariff (off-peak)	15.35	16.12

Table 5 – Charge per annum for non-metered installation customers

Type of Installation	Charge (\$)
Telephone cubicle	148.42
Bus shelter	116.30
Pedestrian lights (per pole)	243.66
Traffic lights (per pole)	520.58
Water sprinkler (no pump)	21.67
Traffic counter	21.67

Table 6 – Charge per installation (\$/installation) per annum for non-metered installation customers – Street Lighting Supply

Light wattage range	Light without pole (\$)	Light with pole, overhead reticulation (\$)	Light with pole, underground reticulation (\$)
1-100	67.42	127.62	143.26
101-200	216.70	264.86	144.46
201-300	297.36	339.49	355.15

Electricity Reform Act

NOTICE OF MAKING OF ELECTRICITY PRICING ORDER

I, DELIA PHOEBE LAWRIE, Treasurer, under section 44(8) of the *Electricity Reform Act*, give notice that:

- (a) an electricity pricing order regulating prices for the sale of electricity to customers of the class prescribed by regulation 13A of the *Electricity Reform (Administration) Regulations* has been made; and
- (b) the order will have the effect of regulating the maximum prices for the sale of electricity to those customers from 1 July 2009 to 30 June 2013; and
- (c) copies of the order may be inspected at or obtained from any office of the Power and Water Corporation.

Dated 25th June, 2009.

D. P. LAWRIE
Treasurer

3/32

Electricity Reform Act
ELECTRICITY PRICING ORDER

I, DELIA PHOEBE LAWRIE, Treasurer, under section 44(1)(a) of the *Electricity Reform Act*, issue the electricity pricing order set out in the Schedule, to take effect on 1 July 2009 and remain in force to 30 June 2013.

Dated 25th June, 2009.

D. P. LAWRIE
Treasurer

SCHEDULE

Electricity pricing order

1 Definitions

In this electricity pricing order:

Constrained Tariff, for a particular Prescribed Customer, means a Retail Tariff calculated under clause 5 of this order.

Corporation means the Power and Water Corporation.

Cost Reflective Tariff, for a particular Prescribed Customer, means a Retail Tariff calculated under clause 4 of this order.

Prescribed Customer means a customer of the class prescribed by regulation 13A of the *Electricity Reform (Administration) Regulations*.

Retail Tariff, for the supply of electricity, means the price that, when applied to a customer’s characteristics and requirements, determines the charge payable by the customer to the Corporation for the purchase of the electricity.

Weighted Average Tariff, for a particular Year, means a multi-part Retail Tariff re-expressed in a cents per kWh weighted average form calculated in accordance with the following formula:

$$[\sum_{i=1}^n [p_t^i * q_{t-1}^i]] / Q_{t-1}$$

where:

- p* is a price component of the Retail Tariff; and
- q* is the quantity weight associated with a price component of the Retail Tariff; and
- Q* is the amount of kWh per annum purchased by the customer; and
- the *i* superscript denotes an individual price component of the Retail Tariff; and
- Σ denotes the summation of all relevant values across all individual price components of the Retail Tariff; and
- t* denotes the current Year; and
- t-1* denotes the most recently completed Year.

Year means a 12 month period commencing on 1 July.

2 Application of electricity pricing order

This electricity pricing order applies in relation to retail prices for electricity supplied to Prescribed Customers.

3 Tariff of Prescribed Customer

For each Prescribed Customer, until a Cost Reflective Tariff has applied to the customer (and thereafter the Constrained Tariff is no longer applicable), the Retail Tariff must be the lesser of:

- (a) the Cost Reflective Tariff; or
- (b) the Constrained Tariff.

4 Cost Reflective Tariff

The Cost Reflective Tariff for a particular Prescribed Customer must be calculated in accordance with a methodology developed by the Corporation which:

- (a) is at a level sufficient to recover from that customer no more than the customer's reasonable share of the forward-looking and efficient costs of supplying electricity to Prescribed Customers including a reasonable risk-adjusted rate of return on the capital employed in supplying such customers; and
- (b) is structured in a manner that signals the economic costs of service provision.

5 Constrained Tariff

During a Year of this electricity pricing order, the Constrained Tariff for a particular Prescribed Customer, when expressed in Weighted Average Tariff form, equals the average price (in cents per kWh) including or excluding GST:

- (a) that applied to the Prescribed Customer during the previous Year plus the percentage increase specified in clause 7 of this order; or
- (b) in the case of a customer who becomes a Prescribed Customer during a Year of this order – that would have applied to the customer had they been a Prescribed Customer during the previous Year plus the percentage increase specified in clause 7 of this order.

6 Role of Utilities Commission

The Utilities Commission must:

- (a) monitor compliance with this electricity pricing order; and
- (b) enforce this order under section 23 of the *Utilities Commission Act* in the same way as if it were a determination under that Act; and
- (c) investigate any complaint made to the Utilities Commission by a Prescribed Customer that prices to which this order applies do not comply with this order.

7 Percentage increase from previous Year

- (1) For the Year commencing 1 July 2009, the percentage increase from the previous Year is 18%.
- (2) For the Year commencing 1 July 2010, the percentage increase from the previous Year is 5%.
- (3) For the Year commencing 1 July 2011, the percentage increase from the previous Year is CPI.
- (4) For the Year commencing 1 July 2012, the percentage increase from the previous Year is CPI.
- (5) In this clause:

CPI means the consumer price index (CPI) factor used in the Northern Territory Government Budget for

the period identified. If a CPI factor is not used in the Budget then CPI will mean an index determined by the Treasurer that is the best estimate of CPI.

4/32

Water Supply and Sewerage Services Act

NOTICE OF MAKING OF PRICING ORDER

I, DELIA PHOEBE LAWRIE, Treasurer, under section 60(5) of the *Water Supply and Sewerage Services Act*, give notice that:

- (a) a pricing order regulating prices for the sale of water supply and sewerage services and other services has been made; and
- (b) the pricing order has the effect of regulating the maximum prices for the sale of those services from 1 July 2009 to 30 June 2013; and
- (c) copies of the pricing order may be inspected at or obtained from any office of the Power and Water Corporation.

Dated 25th June, 2009.

D. P. LAWRIE
Treasurer

5/32

Water Supply and Sewerage Services Act

PRICING ORDER

I, DELIA PHOEBE LAWRIE, Treasurer, under section 60(1)(a) and (b) of the *Water Supply and Sewerage Services Act*, issue the pricing order set out in the Schedule, to take effect on 1 July 2009 and remain in force to 30 June 2013.

Dated 25th June, 2009.

D. P. LAWRIE
Treasurer

SCHEDULE

Pricing order

1 Definitions

In this pricing order:

Corporation means the Power and Water Corporation established under section 4 of the *Power and Water Corporation Act*.

Government customers means:

- (a) agencies, instrumentalities or corporations of the Territory or the Commonwealth whose primary functions do not involve providing services or facilities to the public that are services or facilities that compete with services provided by the private sector; and
- (b) councils constituted under the *Local Government Act*.

multiple residential customers means customers owning or occupying residential properties that are units as defined in section 4(1) of the *Unit Titles Act* or section 37 of the *Unit Title Schemes Act*.

non-residential customers means customers owning or occupying properties that are not residential properties.

portable meter customers means customers supplied through a portable meter issued under section 73 of the *Act*.

regulated services means water supply services, sewerage services and related services supplied to customers by the Corporation under a licence.

related services means:

- (a) services ancillary to the provision of water supply services and sewerage services, if the Corporation has an effective monopoly in the provision of the ancillary services; and
- (b) services ancillary to the ownership or operation of the infrastructure associated with the provision of water supply services or sewerage supply services,

but does not include the acceptance of compliant trade waste that is discharged into a sewer owned and operated by the Corporation.

residential properties includes:

- (a) land on which is situated a building or structure used or intended to be used primarily for residential purposes; and
 - (b) vacant land zoned for residential purposes,
- but does not include land used or intended to be used for commercial purposes, including but not limited to land used or intended to be used for:
- (c) a guest house, hostel, motel, hotel or caravan park; or
 - (d) a farming or mining enterprise; or
 - (e) a residence attached to a shop or professional suite; or
 - (f) premises at which an occupation, business or profession is carried on by a person who resides at the premises.

single residential dwelling customer means customers owning or occupying a residential property who are not multiple residential customers.

stand pipe customers means customers supplied through stand alone water supply services.

water supply services, see section 4 of the *Water Supply and Sewerage Services Act*.

2 Application of pricing order

- (1) This pricing order only applies in relation to prices for regulated services supplied by the Corporation.
- (2) A price to which this pricing order applies must comply with a restriction on pricing specified in directions or notifications issued under sections 28, 29 and 30 of the *Government Owned Corporations Act*.

3 Water supply prices

- (1) Prices for water supply services are to distinguish between the following customer groups:
 - (a) portable meter customers;
 - (b) government customers;
 - (c) stand pipe customers;
 - (d) all other customers,
 in accordance with Tables 1 and 2.
- (2) Prices for water supply services to the customer groups mentioned in subclause (1) for the periods 1 July 2009 to 30 June 2010, 1 July 2010 to 30 June 2011 and 1 July 2011 to 30 June 2012 may only consist of:
 - (a) for all customers except portable meter and stand pipe customers – a fixed daily price component based on the nominal diameter of the meter in

relation to the customer or the service pipe by which the service is to be supplied to the customer (whether or not water is supplied through the meter or service pipe) that does not exceed the amount calculated in accordance with Table 1; and

- (b) for all customers – a water volumetric component expressed in kilolitres (kL) (including a part of a kilolitre) of water supplied during a meter reading period to a property or properties that does not exceed the amount calculated in accordance with Table 2.
- (3) Prices for water supply services to the customer groups mentioned in subclause (1) for the period 1 July 2012 to 30 June 2013 must be calculated in accordance with the formula:

$$p_t = p_{t-1}(1 + CPI)$$

where:

- p_t is the price to be charged for the relevant service in the period; and
- p_{t-1} is the price paid for the relevant service in the previous period; and
- CPI** is the consumer price index factor used in the Northern Territory Government Budget for the period identified. If a CPI factor is not used in the Budget then CPI will mean an index determined by the Treasurer that is the best estimate of CPI.

4 Sewerage services prices

- (1) Prices for sewerage services are to distinguish between the following customer groups:
 - (a) single residential dwelling customers;
 - (b) multiple residential customers;
 - (c) non-residential customers,
 in accordance with Tables 3, 4 and 5.
- (2) Prices for sewerage services to each customer group may only consist of a fixed annual price that:
 - (a) for single residential dwelling customers – does not exceed the amount calculated in accordance with Table 3 for the period 1 July 2009 to 30 June 2010, Table 4 for the period 1 July 2010 to 30 June 2011 and Table 5 for the period 1 July 2011 to 30 June 2012; or
 - (b) for multiple residential customers – relates to the number of residential units and does not exceed the amount calculated in accordance with Table 3 for the period 1 July 2009 to 30 June 2010, Table 4 for the period 1 July 2010 to 30 June 2011 and Table 5 for the period 1 July 2011 to 30 June 2012; or
 - (c) for non-residential customers – relates to the number of sanitary fittings on the land and does not exceed the amount calculated in accordance with Table 3 for the period 1 July 2009 to 30 June 2010, Table 4 for the period 1 July 2010 to 30 June 2011 and Table 5 for the period 1 July 2011 to 30 June 2012.
- (3) Prices for sewerage services to the customer groups mentioned in subclause (1) for the period 1 July 2012 to 30 June 2013 must be calculated in accordance with the formula:

$$p_t = p_{t-1}(1 + \text{CPI})$$

where:

p_t is the price to be charged for the relevant service in the period; and

p_{t-1} is the price paid for the relevant service in the previous period; and

CPI is the consumer price index factor used in the Northern Territory Government Budget for the period identified. If a CPI factor is not used in the Budget then CPI will mean an index determined by the Treasurer that is the best estimate of CPI.

5 Prices for related services

A price for related services may be no more than a fair and reasonable amount taking into consideration the costs of providing the service in an efficient manner.

6 Role of Utilities Commission

The Utilities Commission must:

- monitor compliance with this pricing order; and
- enforce this pricing order under section 23 of the *Utilities Commission Act* in the same way as if it were a determination under that *Act*; and
- investigate any complaints made to the Utilities Commission by customers that prices to which this pricing order applies do not comply with this order.

TABLES

Water supply prices

Table 1 – Fixed daily price component (\$/day), for all customer groups except portable meter and stand pipe customers for the periods 1 July 2009 to 30 June 2010; 1 July 2010 to 30 June 2011; and 1 July 2011 to 30 June 2012

Diameter nominal (DN) of meter or service pipe	Fixed Daily Price (\$/day)		
	2009-10	2010-11	2011-12
Up to 25mm	0.3755	0.4506	0.5407
26-40mm	0.9611	1.1533	1.3840
41-50mm	1.4986	1.7983	2.1580
51-100mm	6.0544	7.2653	8.7183
101-150mm	13.5140	16.2168	19.4602
151-200mm	24.0311	28.8373	34.6048
More than 200mm	Area of connected cross-section (in square mm) X 0.3755	Area of connected cross-section (in square mm) X 0.4506	Area of connected cross-section (in square mm) X 0.5407
	490.87	490.87	490.87

Table 2 – Water volumetric component (\$/kL), by customer group for the periods 1 July 2009 to 30 June 2010; 1 July 2010 to 30 June 2011; and 1 July 2011 to 30 June 2012

Customer Group	Volumetric Price (\$/kL)		
	2009-10	2010-11	2011-12
Portable meter customers	1.1444	1.3733	1.6479
Government customers	0.9536	1.1443	1.3732
Stand pipe customers	1.3290	1.5948	1.9138
Other customers	0.8990	1.0788	1.2946

Sewerage services prices

Table 3 – Fixed annual price (\$/pa), by customer group for the period 1 July 2009 to 30 June 2010

Customer Group	Fixed Annual Price (\$ per annum)
Single residential dwelling customers	428.04
Multiple residential customers	428.04
Non-residential customers	
0 – 2 sanitary fittings	428.04 up to 2 fittings
More than 2 sanitary fittings but less than 25	428.04 plus 291.41 for each fitting more than 2
More than 24 sanitary fittings but less than 50	6,839.06 plus 273.35 for each fitting more than 24
More than 49 sanitary fittings but less than 100	13,672.81 plus 253.79 for each fitting more than 49
More than 99 sanitary fittings but less than 150	26,362.31 plus 235.81 for each fitting more than 99
More than 149 sanitary fittings	38,152.81 plus 228.34 for each fitting more than 149
