- 6.5 Before varying or revoking this **Code**, or imposing any additional or varied obligation on an **Electricity Entity**, under this clause 6, the **Commission** will consult with each **Electricity Entity** in accordance with the procedure set out in clause 7 and otherwise comply with the other requirements of the **Act** and clause 7.

However, any statement made or assurance given by the **Commission** concerning the adequacy of an **Electricity Entity's** compliance procedures will not affect the **Electricity Entity's** obligations under this **Code**.
- 8.2 An **Electricity Entity** must provide a report to the **Commission**, at reasonable intervals determined by the **Commission**, describing the measures taken by the **Electricity Entity** to ensure compliance with its obligations under this **Code**. - 2.7 The financial statements and reports prepared by an **Electricity Entity** in compliance with its obligations under this **Code** must:
- (a) give a fair and reasonable view of the profit and loss and the balance sheet relating to each **Prescribed Business** and its **Electricity Business** as a whole;
 - (b) be capable of certification as such by an auditor when and if required by the **Commission**;
 - (c) be derived from the statutory accounts or their equivalent of the **Electricity Entity**; and
 - (d) contain the entirety of the activities of each **Prescribed Business** and its **Electricity Business** as a whole by:
 - (i) eliminating costs not related to each **Prescribed Business** and (where applicable) its **Electricity Business** as a whole;
 - (ii) not consolidating amounts from statutory accounts of different entities; and
 - (iii) consolidating or disaggregating statutory account amounts within an entity in order to prepare financial statements.
- 2.8 If some or all of the activities of an **Electricity Entity** are carried out by an entity that does not have statutory accounts, all financial representations of **Prescribed Business** activities by such an entity must be capable of being audited by an external independent auditor.

- 2.9 An **Electricity Entity** must present on a fair and consistent basis, from the accounting records that underlie its statutory accounts, the costs, revenues, assets employed and liabilities that may be reasonably attributed to each **Prescribed Business** and its **Electricity Business** as a whole.
- 2.10 The financial statements and reports of each **Prescribed Business** and its **Electricity Business** as a whole must, in so far as is reasonably practicable, be prepared in accordance with the accounting principles and policies applicable to the statutory accounts.
- 2.11 The financial statements and reports of each **Prescribed Business** and its **Electricity Business** as a whole must, in so far as is reasonably practicable, be prepared in a consistent manner so that the **Commission** can make comparisons between them over time.
- 2.12 An **Electricity Entity** must provide to the **Commission** full and detailed documentation of any policies and procedures that the **Electricity Entity** may have used to prepare the financial statements and reports, that are additional to or in place of, the accounting principles and policies used to prepare its statutory accounts.
- 2.13 The **directors** of an **Electricity Entity** will be responsible for the purposes of this **Code** for the preparation and presentation of the financial statements and reports, and the information they contain.
- 2.14 The **directors** of an **Electricity Entity** must ensure that the **Electricity Entity** keeps accounting records that:
- (a) correctly record and explain the transactions and financial position of each **Prescribed Business** and its **Electricity Business** as a whole;
 - (b) enable financial statements and reports to be prepared in accordance with this **Code**; and
 - (c) are capable of allowing an auditor to conveniently and properly form an opinion on the basis of those financial statements and reports as to the level of compliance by the **Electricity Entity** with the requirements of this Schedule, the **Accounting Procedures** and the provisions of clause 4 of the **Code**.

3. Cost Allocation Principles

- 3.1 The **Cost Allocation Procedures** will only be approved by the **Commission** if:
- (a) they ensure compliance with the relevant ring-fencing minimum obligations stated in clause 4 of this **Code**;
 - (b) they are consistent with the accounting policies and procedures for other regulatory instruments;
 - (c) their utilisation involves a recognisable and rational economic basis;

- (d) the resultant financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions and events is reported; and
 - (e) they comply with the principles set out in this Schedule 2.
- 3.2 The **Cost Allocation Procedures** must be presented to the **Commission** in a manner that ensures that the **Commission** may readily understand the methodologies and procedures comprising such **Procedures** and the resultant financial statements and reports prepared by the **Electricity Entity**.
- 3.3 The cost allocations prepared by the **Electricity Entity** in compliance with its obligations under this **Code** must be capable of certification as such by an auditor when and if required by the **Commission**.
- 3.4 For the purpose of financial statements and reports required to be provided to the **Commission** under this **Code** or for other regulatory purposes, the allocation of accounts between each **Prescribed Business** and the activities of the **Electricity Business** as a whole and across segments of a **Prescribed Business** are to be based on the principle that:
 - (a) items which are directly attributable to a **Prescribed Business** or to the **Electricity Business** as a whole and segments of a **Prescribed Business** are assigned accordingly; and
 - (b) items not directly attributable, are to be allocated to a **Prescribed Business** or to the **Electricity Business** as a whole and across segments of the **Prescribed Business** using an appropriate allocator, as indicated in following paragraphs.
- 3.5 An item may be directly attributable to a **Prescribed Business** or to the **Electricity Business** as a whole but not directly attributable to a segment of a **Prescribed Business**. In these circumstances, the allocation across segments of **Prescribed Businesses** will be made using an appropriate allocator as indicated in the following paragraphs.
- 3.6 Items that are not directly attributed either to a **Prescribed Business** or to the **Electricity Business** as a whole or to a segment of a **Prescribed Business** are to be allocated on a causation basis. Allocation based on avoidable cost is not permitted.
- 3.7 An **Electricity Entity** must produce for each item that has not been directly attributed to a **Prescribed Business** or the **Electricity Business** as a whole and/or **Prescribed Business** segment supporting paper work that includes:
 - (a) the amounts that have been allocated to the **Prescribed Business** or the **Electricity Business** as a whole and/or **Prescribed Business** segment and amounts that have not been so allocated; and
 - (b) the numeric quantity of each allocator.
- 3.8 If an item is immaterial and a causal relationship cannot be established without undue cost and effort, the **Electricity Entity** may effect an allocation

of these items on a non-causal basis, provided it is accompanied by a supporting note documenting for each such item:

- (a) a defensible basis of allocation (which must not be avoidable cost);
- (b) the reason for choosing that basis; and
- (c) an explanation why no causal relationship could be established.

3.9 A non-causal basis of allocation may only be applied to the extent that:

- (a) the aggregate of all items subject to all non-causal bases of allocation is not material to the financial statements or reports; or
- (b) an **Electricity Entity** can demonstrate that there is likely to be a strong positive correlation between the non-causal basis and the actual cause of resource or service consumption or utilisation that those costs represent.

3.10 An item is material if its omission, misstatement or non-disclosure has the potential to prejudice the understanding of the financial position and nature of the **Prescribed Business** or the **Electricity Business** as a whole (whichever is applicable), gained by reading the financial statements and reports.

3.11 All bases of allocation must be explained and documented in the **Cost Allocation Procedures**.

4. Information Principles

4.1 The **Information Procedures** will set out the procedures to be followed by staff of an **Electricity Entity** involved in the conduct of a **Prescribed Business** for the purpose of identifying, and then appropriately handling, storing, sharing and publishing, information that is either:

- (a) deemed to be **Confidential Information**; or
- (b) capable of materially affecting the commercial interests of a competitor of a **Related Business**.

4.2 The proposed **Information Procedures** must contain procedures for ensuring that the identification and the handling, storing, sharing and publishing of such information will not provide a competitive advantage to the **Related Business** over any competitor of a **Related Business**.

4.3 If an **Electricity Entity** proposes to allow the disclosure of information of the type referred to in clause 4(d) to an employee, consultant, contractor or agent involved in the conduct of a **Related Business**, the **Information Procedures** must identify categories of information which will also be made available to competitors of the **Related Business**.

4.4 Without limiting the matters which may be covered in the **Information Procedures**, those **Procedures** should deal with the electronic, physical and procedural security measures that the **Electricity Entity** proposes to employ

in respect of the conduct of a **Prescribed Business** (including separation of office space, access to information systems and procedures for the minimisation of **Customer** confusion and opportunities for preferential treatment or other unfair competitive advantage).

5. **Scope of Principles**

Nothing in these principles will limit the matters which the **Commission** may take into account in approving or issuing any **Procedures** or imposing any conditions upon its approval of any **Procedures**.
